Putting The Magic Back Into Software

The bottom of the slide features a decorative graphic consisting of several overlapping, semi-transparent geometric shapes. On the left, there is a dark teal shape that tapers towards the center. On the right, there is a lighter teal shape that tapers towards the center. These two shapes overlap in the middle, creating a darker, more complex shape. The overall effect is a modern, abstract design that complements the clean, minimalist aesthetic of the text above.

THE KUNDALINI PIANO MIRRORING PLATFORM

A Novel Method for Facilitating the Acquisition of Ambidexterity

WHAT IS THE KUNDALINI PIANO MIRROR?

The Kundalini Piano Mirror is a program that performs real-time remapping of **Musical Instrument Digital Interface** (MIDI) messages, designed to work with a standard digital keyboard.

The type of remapping performed has been **patented**, and represents a novel method for playing the keyboard in a manner that facilitates the acquisition of **ambidexterity**.

A complete description of the platform, along with video demonstrations, can be seen online:

WHAT IS AMBIDEXTERITY?

Ambidexterity is the ability to use both hands equally well — or at least to use one's non-dominant hand (or foot!) with some level of proficiency.

Being ambidextrous provides many advantages in life because it helps both the **body and the mind** to be more balanced and developed.

Ambidexterity is a prized attribute in sports, and represents the “holy grail” of full-brain **development**.

The **Kundalini Piano Mirror** provides a novel method for achieving ambidexterity.
